

Children working at Greater Depth

Intent

Our curriculum aims to cater for all the children who are at Greenmount. It aims to ensure that children at Greenmount are challenged appropriately and develop a growth mindset.

Implementation

In order to achieve our aims we:

- ensure that children working at greater depth are challenged appropriately through differentiated questioning.
- give children the opportunity to develop and apply new concepts through hands on and interactive learning.
- encourage children to be more ambitious in their writing and to use more ambitious vocabulary, not just in Literacy lessons but also across the curriculum.

Impact

Children are challenged appropriately in all subjects of the curriculum at Greenmount, and they always aim to do their best.
