

Community and Global Links

Intent

Our aim is to develop children who are global learners, for them to be passionate about their local community and the wider world. We aim for children to feel connected with the wider world.

Implementation

In order to achieve our aims we:

- Have established a global partnership with Rwanyange Primary School in Kenya, this was done through a Connecting Classrooms project with the British Council.
- Have established local links with Pennington Court Nursing home, the local Church and the Mosque.
- Take part in collaborative projects with our link school in Kenya and the Nursing home, often involving whole school art projects and class discussions via Zoom.
- Encourage children to experience debating and communicating with others from different communities, ages and cultures.
- We work together towards the Sustainable Development Goals, by collaborative projects and assemblies.

Impact

Children are aware of themselves as global citizens. They have self-awareness of themselves and their role in their local community and the wider world. Children feel connected to the wider world. They understand how by working together we can all have a positive impact on our world.
